

TSA 007 *

TSA ACCEPTED LUGGAGE LOCK

1

TSA Tool-Free Inspection

TSA-compliant: security staff can open and inspect with a universal TSA key—no cutting, no damage to your luggage.

2

Durable Zinc Alloy Build

Solid zinc-alloy body with galvanized finish and a hardened-steel shackle—cut-resistant and tamper-proof, built to last.

3

Resettable 3-Digit Code

Set and reset your own combination anytime—thousands of possibilities, simple to use, worry-free on the go.

4

High-Contrast Dial

Large, high-contrast digits let you read the code at a glance, even in dim light or a rushed gate.

5

TSA Open Alert

Built-in indicator turns red after a TSA inspection, so you know instantly if your bag was opened.

6

Flush Unlock Button

The release button sits flush with the body to prevent accidental triggering in transit.

NEW ARRIVAL

#13339B

NO DAMAGE INSPECTION

TSA007 cylinder lets security open & relock your bag - no cutting, no damage.
